

ES OPEN HF CONTEST 2013 SOAPBOX

Krzysztof, 3Z6V:

Rig: FT 1000MP Mark V; Ant: Dipol 2 x 10m

Wolfgang, DL-P01-17291

Many thanks for the invitation and the certificate of last year's contest. Wish you a nice spring-/summer-season, all the best 73's.

Hans, DL2ZA:

TS 850 S - 2x 19,5m - Doppelzepp – Hühnerleitung

Toivo, ES0DJ:

RIG: K3, PA-300W, ANT: WINDOM.

Mark Henri ja Ertti, ES1N:

Operaatorid: Mark Henri Pedoson - vanus 16a. ja Ertti Saarik - vanus 14a. Treener Enn Liivrand.
RIG: Yaesu FT-897D, ant.- diipol 3,5MHz ja R7000 vert. 7MHz.

Keijo ja Keven, ES1XQ:

Rig: ICOM-756PRO3, PA 1KW

Ant: 3.5MHZ - täislaine ruut; 7MHZ - Inverted "V"

Boris, ES2JJ:

Rig: IC735 PWR-80W; Ant: Delta Loop

Arvo, ES2MC:

Sellel aastal siis sedapidi... (ühe raadioga ning antennikomplektiga SO2R meeste vastu ikka ei saa!)
ES-aktiivsus vist oli ka lahjem kui eelmisel aastal (?). N1MM kordajate teema tuleks aga ette võtta, miski jama... (1-2 multi läks mul ka selle nahka ilmselt)

Tiit, ES4BG:

Hommikul allatõmmatud vabavara cd logi osutus demoks ja iga QSO jrel 30 sek pausi. HI!

Rig: IC-7400, Ant: dipole

Enn, ES5EP:

Rig: IC-7400, Ant: 80m delta loop

Mati, ES6QZ:

Rig: IC-735; Ant: dipole

Kristjan, ES7GM:

I tried to QSY as much as people asked but for some reason either I misunderstood YL7X or he misunderstood me, so he might have lost me as a multiplier.

Ako, ES8AY:

Kenwood TS-480SAT 100w ant. w3dzz h=20m

Robert, ES8DH:

Rig: IC-746, Ant: 80m Delta Loop, 40m Quad

Alev, ES8TJM:

Rig: IC-706; Ant: "H" DELTA

Tõnis, Teet & Jüri, ES9C

RIGS Kenwood TS-2000 and Yaesu FT-920, ANTS 80m delta loop and 80m dipole
Tegime Multi-One ehk siis D-klassi. Üllatavalt kenasti sujus.

Boris, EU1DZ:

Used FT990 50 watts + dipole

Nigel, G3TXF:

Enjoyed making a few QSOs in the ES Open Contest. Hardly the optimum time of day for working Estonia on 80m! The "repeat QSO" formula is good.

Gedas, LY9A:

Nice to join this fine Contest again. 73 & CU in 2014!
FT-1000MP + dipoles.

LZ49F:

TNX 73

Rig: FT-897 Ant: dipole

Jari, OH1B:

During the first 2 periods ES stations were only light whispers on 40m.
Rig: ICOM 756 100W, Ant: FD4 Windom

Jukka, OH3GZ:

TS-570 + Dipole

Josef, OK1VHV:

Very bad condx

Jean-Jacques, ON3ND:

Not the best time for me... 73 to all entrants !

Jan, PA0ZAV:

Rig: flex1500 5W; Ant: inv g5rv 16m up above water

Frank, PA4N:

My first ES open contest, and I enjoyed it very much. I did have some trouble at times, making myself heard over the other stations calling (stations closer to ES), but in the end I always made it. And I think I didn't do half bad. Thanks for the nice contest, and CUAGN next year.

Equipment: Elecraft K3 + PA + QRO ATU. Ant: 2x25m inverted Vee doublet, fed with open wire.

Yuri, RA3NC:

Tnx for contest!

Vadim, R3PC:

Rig: FT.450

Valery, RW3AI:

Icom 7800, Ant LW, ECO

Allan, SM5CSS:

Rig: Elecraft K3 100W

Lars, SM0Y:

Rig: Kenwood, Ant: dipole

Nils, SM6BSK:

Rig: IC756PROII @ 100 W; Ant: dipoles

Arne, SM7CIL:

Rig: K3; Ant: vertical dipole

Janis, YL2AQ:

See You at next ES-OPEN! 73!

Vilnis, YL2BJ:

As being situated on a border with EESTI VABARIK (in a very late history my QTH was part of Estonia), consider obligation to support contest. Thanks for QSO,s and till next year!

Andris, YL3GAO:

TRX=TS-870,100W

ANT=Inverted-V, 15m AGL

Andy, YL2QN:

Very bad conditions on 40m band from my QTH. All ES-stations with levels not more than 559. 80m was good.

RIG - homebrew Softrock SDR + PowerSDR + N1MM logger

N1MM plugin for ES-OPEN not working properly.

ANT - 80m Inv L + 4 elevated resonant radial system, 80m low height dipole, 40m vertical delta and low height dipole.

Janis YL3AD:

Thanks for REAL FUN, dear Neighbors!

Looks propagation and new operator amount and skills rises from Year to Year. Till next ES-OPEN!

A couple of day's forget to send my LOG, sorry.

But now is a REASON to say "CONGRATULATIONS!!!" about ESTCUBE!

73!

Arvis, YL7X:

Started in category C, then after 45 min changed to A, the run was too slowly :))) Lost 2 mults on 80m SSB, anyway very nice contest..TNX Estonian friends!

Crisan, YP5T:

Rig: FT-950, 100W; Ant: Dipole
