

ES Open Championship 2008

SOAPBOX

DD1IM, Sascha:

Hi dr Estonian ops,

now I enjoyed my 4th ES Open Championship test es hpe cu(agn) all.
As I have written before: the ES Open is one of my favorite tests!
Unluckily the condx were somewhat poor - can't achieve the last
year's performance. Hrd some more ES, but no real chance wid around
80w & toy antenna portable w3 @ 7/1 mtrs.

Did meet agn mni ES-friends - ufb!!!

Tnx 2 all ops for qsos es ERAU for contest & work, vy 73, gl
es cwfe

de Sascha DD1IM (member of DARC, DOK K27)

DK6XZ, Suad:

Waited disappointed the first 10 min of the contest on 80 m to hear
anyone... but only strong OK/OM contest stations. To Estonia no condx
at all! Only last 20 min of that first=20 hour was good opening on 40
m. Several stations I called did not hear me...

Anyway, played a bit with my PC and made a full time job with ES
competitors. Due to logging program problems sent 3 times s/n 010.
Sorry for that!

I am pleased to be a part of your Championship and many thanks for
your kind invitation.

Congrats to Tonno, ES5TV for top score and Toomas, ES5RY for LP
efforts.

Rig: YAESU FT-1000 MP (100 W) + KENT PADDLE + HEIL HC-4 HEADSET
Ant: VERTICAL WINDOM (6,8+15 m), DXSR VFD-4 (9-BANDER) FED @18 m
PC: TOSHIBA SATELLITE PIII 1GHZ - UCXLOG 6.20

See you all again...

73 Suad, DK6XZ / E77XZ

DL-P01-17291, Wolfgang:

Sri, but this year also not too much logged.
By the way, many thanks for the certificate of last year's contest.
73!

ES1AN, Andres:

Palun arvestada tulemust ka klassis F, Põhja-Eesti raadioklubi
liikmena.

Jõudu kontrollimisel!

ES1AO, Teo:

Jõudu kohtunikele!
Töötasin nii palju, kui mahti leidsin.

IC706+dipool

73!

ES1CW, Arvo:

Sri, suurte seiklustega ... Kõikvõimalikud <nihu> kontrollnumbrid on minupoolsed - vastu võetud kuid mitte kohe õigele logireale kribitud ja hiljem mustandiribalt tuletatud. Üle kolme ei tohiks selliseid küll olla, peamiselt mõnede ES-jaamadega. Please vastaspoolt mitte karistada... kui võimalik.

Peale testi vaatasin pikka aega passist sünniaega. Tulin järeldusele, et mida vanem on koll, seda lollim ta on, et läheb noorte jänestega võidu jooksma...

ES1LBK, Sven:

QTH: Laulasmaa.
TS-520, 100W, 80M DIP, feedpoint 6m above sea level.

Mul on nii kahju, et ei saanud minna ES0 ja sealt vähemalt üritada 40m kordajat anda cw'l, aga ehk järgmine aasta :)
Vä4ike tulemus, sest loobusin tunniks võistlusest. Programm vedas alt, sest enne ei teinud piisavalt eeltööd ja pidingi hakkama pliiatsit teritama.

ES1LS, Harald:

Rig: FT -890; 100W
Ant: delta 80; dip 40m

ES1OV, Enn:

Rig: ICOM 706MK2, 100W
Ant: inv.V - 80m, R7000 - 40m.

ES1QD/0, Vello:

QTH: Muhu saar.
Rig: YAESU FT-920, PA: 500W
Ant: 80M-DIPOLE, 40M-INV."V" JA DIPOLE.

ES2BH, Veiko:

Hea levi oli.

Rig: IC7400
Ant: Delta

ES2DJ, Toivo:

Good propagation on 40m band;

80m: IC-7000, PA-500w skywire loop;
40m: IC-7000, PA-1KW DIPOLE, SO2R- MK2R+

ES3BM, Mart:

Transiiver IC-706 MK2G ja lõpp 800w, antenn horisontaalne delta loop.

ES3GX, Henno:

Aparatuur: TS-570 D 100W, antenn INV-V 80-40 m

ES3RF, Gennadi:

Rig: FT-1000MP

Ant: Inv-L, R8-Cushcraft

ES4A, Anatoli, Valeri ja Nikolai:

Rig: FT-847

Ant: Delta loop

Worked in N1MM contest program.

Thank you all, see you later in Baltic Contest.

ES4BG, Tiit:

Rig: IC-7400

Ant: 80m dipole, 40m Inverted Vee

ES4RZ, Vladimir:

Rig: ICOM IC756PROIII 500 wtts

Ant: Delta Loop

ES5EP, Enn:

IC-7400, delta loop

ES5JR/8, Jüri:

QTH: Suigu küla

FT-920 100W, ühe kaabli otsas 40m/80m dipoolid õunaaias 3 meetri kõrgusel.

ES5QA, Valeri:

IC-735, dipole

ES5WP, Kaido ja Mihkel:

Yaesu FT 897, delta loop

ES5NC, Peeter:

Palju tänu hea contesti korraldamise eest! Jõudu logidega ja edasise korraldamisega. 73!

ES8AY, Ako:

Rig: Kenwood TS 480 SAT 100W

Ant: Inv V, h= 7m

ES8TJM, Alev:

Rig: IC706
Ant: Delta LOOP 80M & TwinDelta LOOP 40M

ES9B, Toivo:

Rig: IC-706mkII + PA
Ant: Delta

EU6AA, Victor:

Rig: FT-840
Ant: Delta

G0DVJ, Jonathan:

Very nice contest - tnx to organisers in ERAU

Rig: FT-2000
Ant: 80m full wave loop

HA4FY, Janos:

Although my home made single band QRP transceiver (Miss Mosquita by DL-QRP-AG, abt 3 watts out) is not a real contest equipment, it was exciting to try it in this nice contest.

LY2J, Pranas:

Tnx for contest.

LY2NK, Algis:

Tnx, 73!

LZ1GL, Krasimir:

Very poor conditions on both bands. Expected to hear more Estonian stations

Power 50w
Ant: 245m long wire

OG50F, Timo:

Nice contest but no luck with SD software. It never worked, so maybe some dupes in the log, sri.

Bad cndx on 40m.

Rig: FT-1000mp+PA
Ant: 80m: inv-vee, GP; 40m: 3/2el yagi, dipole

OH6JYH; Harri:

Rig: Kenwood TS-680S
Ant: G5RV

OK1FCA, Stanislav:

Rig: 80 W input

Ant: mobile whip fitted on window @ 5 m

OK7U, Jaroslav:

Rig: Elecraft-K2/100

Ant: dipole Inv-V

73, es HPE CUAGN

ONL3647, Geo:

Only a very small log this year from ONL3647 (SWL class). Very bad conditions on this side, nothing to hear after 05.30 GMT, neither on 80 or 40.

I used a R5000 receiver and a simple long wire 45 ft long and 10 ft high.

I hope to do better next year.

Thanks again for the nice certificate for ES OPEN 2007.

OP4A, Francis:

Using SD logging working perfect

Rig: IC-746

Ant: GPs

Best 73 to all!

PA3ARM, Harry:

Tks fer the contest es the log.

73

PA0WKI, Wim:

I did not read the contest rules before. Therefore missing many QSO points.

Rig: TS450S /AT

Ant: FD4

RV3DBK, Victor:

Rig: QRP 2 Watts

Ant: magnetic loop (indoor)

SM5CSS, Allan:

In my QSO with ES5RBX at 0648 I forgot to write down the serial number and afterwards I did not remember if it was 115 or 078! My claimed score is probably wrong because N1MM Logger program did not include ES Open HF Contest.

My rig IC-751 output 100w and antenna Inverted W3DZZ.

SM6BSK, Nils:

Rig: IC756PROII

Ant: 2x10 dipole

SOAPBOX: SD did a fine job in this nice little contest!

UA3LHL, Sergei:

MNY TNX FOR THE NICE CONTEST!

UA6HFI, Nikolay:

FB TEST!

Rig: YAESU FT920, 100W

Ant:: GP

US1UU, Sergei:

Power 5 watts.

73!

YL1S, Priit:

Siin on logi YL1S kohta. Loodan, et sobib ja kõik on korras.
Kui ma lähen ka F klassis arvesse, siis Viljandi Raadioklubi.
73 de ES7AGW

YL2BJ, Vilnis:

Not a big activity from ES stations. Took part after some years
absence. In any case it was nice saturday.

YL2GD, Gunars:

TNX for good S&P training! Maybe less number of ES stations than in
2007.

YL2YL, Arvis:

Thanks for nice contest :))) Many neighbours from YL were in the
contest...

YL3AD, Janis:

A bit difficult (40 meters exactly) but interesting contest. Thanks!

Hopefully I'll get better result next year!

73! Janis

YL9T, Ingus:

Rig: IC-756PRO3, PA 1KW

Ant: Delta loop.
